### **ExpressJet Media Holding Statement** UAL Flying End Sept. 30, 2020

On July 30, United Airlines (UA) selected CommutAir as its sole ERJ145 operator, and asked ExpressJet Airlines to wind-down flying for UA by year end. After spending considerable time planning this wind-down, ExpressJet and United's management teams decided that due to uncertain schedules from October to December, it would be best to accelerate the termination of all ExpressJet scheduled service flying, on behalf of United Express, on September 30, 2020.
